**Supervised Consumption Guide**

Once you are approved to offer the supervised consumption service it should appear in your services menu of PharmOutcomes.

**Registration:** The first time a patient uses the supervised consumption service, reported on PharmOutcomes; log onto PharmOutcomes and select the “Supervised Consumption - Registration” service.

Complete the first prescription’s date patient name and date of birth and submit the form.

**This only needs to be done once per patient.**

**Supervision:** Once a blue FP10 MDA prescription has been completed; log onto PharmOutcomes and select the “Supervised Consumption - Supervision” service.

Enter the prescription start date. The dates on the provision fields below will then change to match your prescription.

Enter the patient name – the system will look up you patient details from the registration form.

Select the treatment type

Enter the days that the patient attended or should have attended as “supervised”, “refused supply” or “did not attend”.

Enter any non-supervised days as “take-out dose” and, if less than 14 days, select “prescription complete” on the day following the last dose.

Multiple entries can be completed quickly using the “quick actions” buttons.

Select any reasons for refusal of treatment or “no client issues” and enter any required notes in the box below.

You will still need to contact the patients addiction treatment service in line with guidance if the patient does not attend for 2 days or is refused supply.

Check the entries match your prescription and then submit.

File your blue FP10 MDA prescription as usual.

If you forget your password or have any other technical issues with the PharmOutcomes site please contact the helpdesk using the “help” tab.
