

PATIENT QUESTIONNAIRE

Were you expecting to be tested for a respiratory infection at the pharmacy today?

Did you find the pharmacist's consultation helpful in understanding your condition/symptoms?

Was the test painful?

Did you find the test results easy to understand?

Before this test would you have made an appointment to see your doctor?

Before this test would you have made an appointment to see any other Health care professional such as out of hours or walk in centre?

Before you had the test would you have expected antibiotics from your doctor?

Are you happy for the pharmacist to call you in a few days' time to check on your symptoms?
