Government Encourages More People to Use Their Local Pharmacy In Relation to Minor Ailments, Instead of Visiting Their GP or A&E

Julian Smith MP for Skipton and Ripon, visited the Morrison's Pharmacy, Harrogate Road, Quarry Moor, Ripon, HG4 2SB at 11am on Friday 16th January 2015. The purpose of his visit was to encourage people to use their local pharmacies to their fullest extent. This is because they are a convenient alternative to GPs and A&E when it comes to minor ailments such as, coughing, respiratory problems, colds and sore throats.

As age begins to become a factor to your health, it is possible for your minor winter ailments to become serious and lead to hospitalization for treatment. By making the most of your local pharmacy and seeking pharmaceutical advice in the early stages of illness, you may improve your chances of avoiding a serious issue and hospital admittance.

It is not easy for everyone to ask for help. Many feel like seeking the aid of a pharmacist due to minor ailments, such as colds and sore throats, is a potential waste of their time. Those few people could not be more wrong - they want to help! Your local pharmacist has your best interest at heart and would not turn you away. The sooner you seek pharmaceutical advice, the sooner you will recover and get back on your feet.

An ever-increasing amount of people are visiting their local pharmacists for help and advice. This is because pharmacists are a trusted, highly trained and

convenient source of health advice. As soon as symptoms begin to occur, talk to your pharmacist. They are the heart of the community.

Local community pharmacists can:

- Give you expert advice to help prevent and relieve common conditions such as coughing, respiratory problems, colds and sore throats.
- Help you manage a long term condition.
- Offer longer opening hours than many GP surgeries without the requirement of an appointment.
- Provide private consultations.
- Tell you if you need to see your GP.

Julian Smith, MP Skipton and Ripon said, "We need to encourage more people to make better use of their local pharmacies. Pharmacists are highly trained and can be a more convenient option than visiting your local GP or A&E. I am pleased that Morrison's is a proactive pharmacy chain that plays an important role in the local community. We need to make more use of our community pharmacies and the skill base of our pharmacist as a first port of call with minor ailments, such as colds and sore throats."
