Pharmoutcomes MAR Chart Service User Guide

Produced by Community Pharmacy Sheffield

April 2018

1. To enter MAR Chart activity on Pharmoutcomes you must select one of these options on the left hand side. On first provision for a service user you must register them.

2. Unless you have the new style consent form you may not have all of the information contained in this form. If you do not know any field you can enter unknown. You MUST ensure that the actual date of registration onto the service is entered in the appropriate boxes.

The screenshot shows the 'Service Specification' form in PharmOutcomes. The 'Date of entry' is set to '22-Apr-2018'. A blue box highlights the 'Consent to share information' section, which includes a warning about data sharing and a checkbox for 'Consent to share: (Consent is required to provide the service)'. Below this, the 'Service User Name' is 'Mr A Test', 'Date of Birth' is '01-Jan-1930', 'Postcode' is 'S358NX', and 'Address' is '58 Greno Crescent, Grenoside, Sheffield'. The 'NHS Number' field is empty.

Service Specification

Date of entry: 22-Apr-2018

Consent to share information

If you give consent for data sharing, the information you provide will be passed to your GP.
You will not be able to continue with provision of this service without consent.

[+] Click to show notifications covered by this consent

Please check that Form A of the Medication Authorisation Form has been completed and signed by the service user or their representative. If Form A has not been completed the Medication Authorisation Form must be returned to the home care provider. A new service cannot be registered if Form A is not completed.

Consent to share: (Consent is required to provide the service)
Consent to share given

- Home care providers must complete a new Medication Authorisation Form for every service user, either when a new package commences or they are reviewed over the 12 month period from 19th March 2018. Once this is received you must update all of the relevant information in this form as pictured below. DO NOT re-register the patient. You need to search for the patient in the search bar as shown on the following page.

4. You will then need to unlock the record as below. This will allow you to amend the record without affecting any payments. Insert all the information you have and click save.

5. Each time you supply a monthly MAR Chart it needs to be recorded on the pharmacist claim section as below. The date can be changed to the date the provision occurred to ensure that claims can be made retrospectively. You need to ensure this date is accurate as you can only enter a further provision after 28 days. If a MAR chart is replaced, or reissued for any other reason, during the 28-day cycle, please log this activity using 2b: Replacement MAR Chart. For further guidance regarding the issuing of replacement charts, please consult 7.1.13 and 7.1.14 of the Service Specification.
