

9<sup>th</sup> March 2015

## Welcome to Smokefreelife Somerset

I am delighted to introduce Smokefreelife Somerset, the new stop smoking service being provided by Solutions 4 Health LTD which commences on 1st April 2015 and will be based locally at Exchange House, 12-14 The Crescent, Taunton, TA1 4BE.

As the Public Health and Lifestyles Director for Solutions 4 Health, I am passionate about engaging with pharmacies across Somerset and understand the important role they have in the provision of a truly accessible and visible service for the residents of Somerset.

We have invested in a dedicated Primary and Secondary Care Coordinator. As the point of contact they will be responsible for establishing and developing relationships with the LPC and individual practices and will be in touch in due course.

Encouragingly, the service level agreement (SLA) remains unchanged. A copy of which is enclosed. For those currently delivering a stop smoking service and wish to continue to do so as from the 1st April, or you are a new organisation wanting to deliver an on site stop smoking service, please complete and send back to the address provided.

We are keen to avoid any disruption to current client's service provision and plan to continue with any hosted clinics by your organisation. Equally, you may be interested in hosting a clinic using one of their trained stop smoking advisors. Either way, please do contact the service to express your interest to continue hosting or begin delivering a Smokefreelife Somerset clinic.

Additionally, a full complement of **FREE** training will be provided. All training sessions will be uploaded to [www.smokefreelifesomerset.co.uk](http://www.smokefreelifesomerset.co.uk) when the website goes live on the 25th March 15. You can find the links to their social media from this site also. You will also be receiving a range of **FREE** high quality promotional material to advertise the service or your own clinic.

We would be delighted to hear from you should you have any queries whilst the recruitment for the Primary and Secondary Care Coordinator is completed:
