

Dear Somerset Pharmacy Contractor

In April 2015, Somerset County Council commissioned an NHS Health Check Programme from ToHealth Limited. The expectation is that pharmacies will deliver in excess of 10,400 Health Checks across the County each year.

ToHealth have appointed LloydsPharmacy as the Pharmacy Lead contractor and we are looking to recruit additional pharmacies to participate in this exciting opportunity.

To participate, you will need to the following facilities and equipment:

- Consultation room with a computer with the ability to print
- Computer must be able to access www.smartgp.net (using up to date version of Mozilla Firefox or Google Chrome)
- Height measurer and scales
- CardioChek Cholesterol Machine with internal Quality Assurance checks in place
- External Quality Check for CardioChek (Lloydspharmacy can advise)
- BP monitor able to measure for irregular pulse
- SOP (this can provided if necessary)

You will also need to fulfil and provide evidence for:

- DBS check (certificate or number required)
- Service Risk Assessment
- Staff training in:
 - Health and Safety
 - Equality, diversity and human rights
 - Infection prevention and control
 - Managing challenging behaviour
 - Confidential Information and Governance

The payment for provision of the service is £25 per health check, including all consumables (which you will be responsible for) with each Pharmacy expected to complete 5 per week. This would mean an additional £6,500 revenue per annum. There is scope to over deliver for additional revenue.

Offsite training will be provided free of charge by Lloydspharmacy and ToHealth for a maximum 2 delegates per pharmacy. Delegates will be expected cascade their training to colleagues back in store.

If you are not the appropriate person to respond to this communication, please can you reply and provide details of the appropriate person to be contacted.

Kind Regards,
Stephanie
