Dear Colleague,

Re: Improving Inhaler Technique through Community Pharmacy Service

I am writing to inform you of an update to the current Service Level Agreement (SLA) for the above service. The update does not materially change the operational delivery of the service, the requirements to become accredited to deliver the service or payment for service delivery. However it is for the following reasons:

1. Following a review of available funding to confirm that the service will be extended until 31/07/2019.
2. To bring the service into line with the General Data Protection Rules and Data Protection Act 2018.
3. To confirm that the service is commissioned as per the Pharmaceutical Services (Advanced and Enhanced Services) (England) Directions 2013.
4. Community Pharmacy Greater Manchester Healthcare Ltd will be supporting the management of the service going forward from October 2018.

You will be sent an updated version of the SLA incorporating these minor changes. However, are not required to re-sign and submit if wish to continue the service.

If you have any queries please do not hesitate to contact me.

Yours faithfully,

Stephen Riley
Senior Primary Care Contracts Manager
Optometry and Pharmacy
