

**Please be patient whilst we deal with
increased demand**

Simple Advice

Help Your Pharmacy Team

Do not visit a pharmacy if you or anyone in your household has a **temperature** or a **new and continuous cough**, even if it's mild.

Please only order your next prescription **seven days** before it is due.

Sign up for electronic prescriptions if you haven't already done so.

Put your contact details on your prescription in case we need to contact you.

If you are self-isolating please ask family, friends or neighbours to collect your medication, if you don't have anyone, please contact us.

Please only phone us if it is urgent.
