

### Antimicrobial stewardship

Antimicrobial stewardship is a vital part of every pharmacy professional's everyday practice. This workshop will help you learn more about what you should be doing to prevent antimicrobial resistance, no matter which sector of pharmacy you work in.

<https://www.cppe.ac.uk/programmes/e/antimicro-ew-01>

**Dates available to book:**

May 4, 19  
June 14, 22

### Depression

At least a third of the population will experience an episode of mild depression during their lifetime. This programme focuses on the concerns of people with depression, how to optimise their medicines and achieve better health outcomes.

<https://www.cppe.ac.uk/programmes/e/depress-ew-01>

**Dates available to book:**

May 4, 24  
June 17, 23, 30

### Consultation skills

Great consultation skills are an essential foundation of the practice of all pharmacy professionals and underpin all our advanced learning programmes. Join this workshop if you've not yet completed the consultation skills assessment or are new to one-to-one patient consultations.
