Messages to pharmacists on the Supervised Consumption Scheme with CGL Spectrum

The present **Covid-19 health crisis** means that imminent changes will have to be made to our service users treatment plan.

Yesterday we wrote to you informing you of the principles we are adopting to implement these changes.

Next week we will be looking to changing collection arrangements for opiate substitute medication to fortnightly wherever appropriate.

This will mean that for most of our service users you will need to ensure that you have enough stock of medication to allow for this. It would therefore be advisable to order increase stock of medication to allow for these changes.

Once again thank you for your continued support. To contact us please telephone 0800 652 3169 or email us on herts@cgl.org.uk
