## **CORPORATE GOVERNANCE AND THE SOMERSET LPC**

The LPC has accepted the following guiding principles for members of the Committee:

**Accountability** – Members of the LPC are accountable for their decisions and actions to Contractors and the public, and therefore submit to scrutiny.

**Openness** – Members should be as open as possible about all the decisions and actions they take. They should give reasons for their decisions, and restrict information only for short term tactical reasons, or when the wider public interest clearly demands.

**Honesty** – Members have a clear duty to declare any private interest relating to their LPC duties and take steps to resolve any conflicts arising.

**Leadership** – Members should promote and support the above principles by leadership and by example.

**Representativeness (Selflessness)** – Members must reflect the interests of the Contractors who elected or appointed them to the LPC and must not make decisions in the interests of the general body of Contractors; they must not make decisions to gain financial or other material benefits for themselves, family or friends.

**Integrity** – Members must put themselves under any obligation that might influence their performance on the LPC, or their ability to reflect the interests of the Contractors who elected, or appointed them, or to make decisions in the interests of the general body of Contractors.

**Objectively** – In making decisions, and in carrying out the business of the LPC, Members should act within the constitution and make decisions only on merit.

### **Note**

The effect of the principles of Representativeness and Integrity is that the nominating bodies can mandate the Members to express a view, but cannot bind them in how they vote, or decide on an issue. This means the Members can hear and participate in debate and are free to amend their views in the light of the debate. They will no doubt then reflect to the relevant body why they mad
