

Community Pharmacy Somerset
Naloxone take home (NTH) service - frequently asked questions

Question	Answer
How many naloxone syringes (Prenoxad [®]) should I supply and how often?	Turning point has recommend that you offer naloxone to the client as often as they come into the pharmacy. It is appropriate to supply up to 3 packs at one time if this is requested by the client as there may be some element of peer distribution.
How many naloxone syringes (Prenoxad[®]) do you suggest we keep in stock?	Turning point has recommended ordering a small amount first (eg, 5 syringes) and then review based on the response. They are ordered via wholesalers, so you can order frequently. You can then review your stock holding once you have got started with the service. You may want to keep more in stock if you are a needle exchange service also with high footfall.
Would pharmacies be able to give nasal spray instead for those patients who don't like needles?	No - it is not in our SLA currently but we may explore in the future.
How do I access the dummy Prenoxad[®] kits?	Dummy Prenoxad [®] kits will be sent out to pharmacies via Ethypharm - contact Yvonne.somersetlpc@gmail.com if you need more.
Is there an expiry date for naloxone syringes (Prenoxad[®])?	The shelf life is three years from date of manufacture. Yes we encourage them to request new supplies if the expiry date is passed.
What reimbursement price for the service provision?	Cost of drug plus £5 service fee, which will paid every quarter.
Who do I contact if I have any payment enquiries?	Please email: Justin.Hoggans@turning-point.co.uk for any payment enquiries.
Is the PharmOutcomes page live and ready for us to use?	Yes, once the SLA has been signed and returned to: Yvonne.somersetlpc@gmail.com and Justin.Hoggans@turning-point.co.uk , then your pharmacy will be accredited on PharmOutcomes to provide the service.

<p>What details do we need for PharmOutcomes?</p>	<p>Please see the screen shot below for what information is recorded in PharmOutcomes. If you have any questions email: Yvonne.somersetlpc@gmail.com</p>
