

## Quality Payments: CPPE Children's oral health training requirement

Community pharmacy contractors may be required to provide evidence to local NHS England teams to show that they have met the Quality Payments criteria. This table can be used to record details of the pharmacy staff including pharmacy professionals (that provide healthcare advice to public) who have successfully completed the Centre for Pharmacy Postgraduate Education (CPPE) Children's oral health e-learning and associated e-assessment.

When a member of pharmacy staff (that provide healthcare advice to public) has successfully completed the e-learning and e-assessment, a certificate of completion will be stored in their personal record on the CPPE website. This can be printed to provide evidence of completion; contractors are advised to keep a copy of each member of staff's certificate within the pharmacy.

Member of staff or locum's name	Date e-assessment successfully completed
