COVID-19 VACCINATION PROGRAMME

To avoid potentially confusion for patients, these should only be used in areas where there are specific pharmacy sites up and running. LPCs may prefer to swap the below case studies for their own local examples.

Some community pharmacies are playing a key role in the #COVID19 vaccination programme, opening sites in areas to best reach high risk groups or filling gaps in local provision. #Pharmacy24 #pharmacyheroes #patientcare #patientsafety #nhs

Pharmacy supporting C-19 vaccination: Some community pharmacists began vaccinating patients as soon as the first Primary Care Network (PCN) sites launched. #Pharmacy24 #pharmacyheroes #patientcare #patientsafety #nhs <https://psnc.org.uk/our-news/community-pharmacy-already-playing-its-part-in-covid-19-vaccination/>
